

# rtkflow - RTCM Correction stream

RTCM Correction streams are used to improve the accuracy of differential GPS systems up to millimeter level order (if the receiver uses multiband high gain GPS antennas)

The correction stream provided is to be used in the Texas state, a subscription can last 6h, 1 month or 1 year according to the purchased plan.

Except for the 6h subscription, the plans provided cover 24/7 stream service. Please consider **ordering only if you have already compatible software** and hardware.

## About Texas:

Location map of Texas in the US.

Texas is one of the [50 US states](#), located in the south-central part of the country; it features a 560 km (350 mi) long coastline on the Gulf

of Mexico in the southeast, and a 3,169 km (1,969 mi) long border with [Mexico](#).

The Rio Grande, Texas' longest river, forms the border to the Mexican states of Chihuahua, Coahuila, Nuevo León, and Tamaulipas in the southwest.
